## Notice of Fee Increase on October 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on October 1, 2003. See Revision of Patent Fees for Fiscal Year 2004; Final Rule, 68 Fed. Reg. 41532, 41533, 41534 (July 14, 2003).

The current fee schedule is accessible from (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2003 (or mailed with a certificate of mailing on or after October 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Effective October 1, 2003, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

### Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- By a small entity (Sec. 1.27(a))..... \$665.00
  - By other than a small entity..... \$1,330.00
- (b) Issue fee for issuing a design patent:
- By a small entity (Sec. 1.27(a))..... \$240.00
  - By other than a small entity..... \$480.00
- (c) Issue fee for issuing a plant patent:
- By a small entity (Sec. 1.27(a))..... \$320.00
  - By other than a small entity..... \$640.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with John J. McGlew (Reg. No. 31,903) on October 15, 2003.

1. The claims of the application have been amended as follows:

Claim 5, lines 16-17: "a timer to allow additional attempts" has been changed to --a timer to allow a period of time for additional attempts--;

Claim 13 has been canceled;

Claim 30, line 1: "a method in accordance with claim 1" has been changed to --a method in accordance with claim 15--;

Claim 36 has been canceled.

2. The abstract has been amended as follows: lines 3-6, "In one embodiment, the telephone set includes two MAC devices. Each MAC device is in electrical communication with one of the two networks via communication path. In another embodiment, a packet switching device provides the separate communication paths to the two networks" has been deleted.

***Allowable Subject Matter***

3. Claims 3-12, 15, 17-23, 25-27, 29-30 and 34-35 are allowed.
4. The following is an examiner's statement of reasons for allowance: Regarding claims 3-12, 14-15, 17-23, 25-27 and 29-30, the prior art of record fails to teach a method for attempting to forward packets to a network, establishing a time limit to forward the packets, canceling the

Art Unit: 2666

forward the packet when the time limit expires, and allowing the packet transmission to be completed when the packet is being transmitted over the network or interrupting transmission of the packet when the packet is being transmitted over the network or replacing the packet stored in memory with a new packet including the same data as the replaced packet or creating a second packet to replace the first packet by combining data of a first packet with additional data.

Regarding claims 34-35, the prior art of record fails to teach a method for attempting to forward packets to a collision domain, monitoring an elapsed period of time while attempting to forward a packet stored in memory to the collision domain, and canceling attempts to forward the packet stored in memory to the collision domain, wherein an audio packet contains time sensitive audio data and no time limit or a different time limit is established for packets not containing audio data received from a collision domain.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
